If you are a user of Windows 7, Windows 8, or Windows RT to Windows 10 this will come as a great news for you! You can use Windows 7 or Windows 8 to Windows 10

without losing your data or your applications. Just install the updates yourself and then start. You will see the same experience as a new system. For me it was just a matter of waiting a few weeks. It would have gone into the system if the update was a little bit earlier, but not really a big deal. I just watched the videos to see if it would be a problem with newer windows. If not, I would download the update, and it would have to be installed on my old system. I would have to do a new installation for the newer versions of Windows but it would have to be on the old system and I wouldn't be having an issue with it.
