

Download

NicoFox is a lightweight Firefox add-on that allows you to download videos from the Nico Nico Douga video website, view them with the built-in media player and find them among the videos you have already downloaded. Key Features: - Simple, user-friendly interface - Easy to download videos and comments - Allows to schedule downloads when videos are available - Supports single download and batch download - Easy to play downloaded files - Allows to see only certain languages when downloading comments - Supports playback in external players - Allows to search for videos among the downloaded ones - Allows to choose which video and comment to download - Supports FLV, MP4 and SWF formats - Supports downloads to multiple destinations - Automatically remove saved thumbnails when they have been displayed enough Installation Instructions: - Download the addon from its official website and extract the contents - Open "about:addons" in your Firefox browser - Click "install add-ons" and locate the download file - Click "install" - That's it! Benefits: - Browse to the website and download the video you want to watch - Open the downloaded video in the media player - Find and download comments and thumbnails - Change the maximum number of downloads - Define file naming scheme - Choose what languages you want to see when downloading comments - Set the size of thumbnails - Set the program to download high-quality videos - Play the downloaded videos and view their thumbnails - Set external players for videos and download links - Filter the downloaded clips - Download the latest videos and comments - Search for videos among the downloaded ones - Customize the video downloader - Choose the video and comment to download - Play the downloaded files - Open the files in external players About:addons Known Issues: - In some cases, the downloaded videos cannot be played (the video in the media player, for example) - If the video is of really poor quality, the downloader may not be able to play it - If the downloader does not play the downloaded file in time, the file will be saved in the "temporary" folder. It can be deleted manually from there - The size of the video may exceed the limit allowed. The files will not be saved then NicoFox Description: NicoFox is a lightweight Firefox add-on that allows you to download videos from the Nico Nico Dou

NicoFox lets you download videos and comments from the Nico Nico Douga video website. It is a light-weight extension for Firefox that lets you download videos and comments, and then view them on your computer with the built-in media player. It has a simple interface that blends in with the browser's look and feel. It is quick and easy to use. Download videos and comments After installing the extension, you can browse for a video on the website and download it, as well as any comments and thumbnail images that are displayed on the page. You can define the maximum number of videos that can be downloaded simultaneously, and set a custom file naming scheme for them. You can also specify where the videos should be saved. If you download both videos and comments, you can choose the languages that should be included. Additionally, you can also change the size of the displayed thumbnails or have the application remove them entirely. If you wish to download high-quality videos, you can set up a schedule to do so when the videos are no longer restricted. Easily play the downloaded files NicoFox has a built-in media player, that lets you view the downloaded videos, as well as the comments they are associated with. In addition, you can use external players for FLV and MP4 videos, and an individual one for SWF files. You can also search for videos among the clips you have downloaded, making it easy to find the ones you are looking for. All in all, NicoFox is an easy-to-use Firefox add-on that can help you download videos and comments from the Nico Nico Douga video website. NicoFox Screenshots: 1 comment : Hey! I know this is kinda off topic but I was wondering which blog platform are you using for this site?I'm getting fed up of WordPress because I've had problems with hackers and I'm looking at alternatives for another platform.I would be great if you could point me in the direction of a good platform./
