If you find yourself in the situation where you just bought a new computer and for some reason your home screen wallpaper is different from what it was on your old system, then you'll love the article we've found for you. Simply click the below link, and you'll get a fresh new wallpaper in no time. The program is freeware and it's a simple matter of clicking a button to swap out the home screen wallpaper. It won't require any downloads or special installations, so it should work in all versions of Windows 10, 8, and 7. You can choose a different wallpaper for each of the main sections of the desktop. The default is the desktop wallpaper, the search screen will have the search screen wallpaper, and so on. You can also switch between multiple wallpapers for each of the other sections, or switch to a completely different wallpaper if you'd like. The beauty of this program is that it will remember your preferences, and the wallpaper that you picked out for the main screen, will be the one that is applied to the desktop for all other screens. If you'd like to try this wallpaper changer yourself, you can do so for free by clicking the below link. Finally, if you have a different wallpaper that you want to use, but you can't decide which one is the best for your home screen, you can use this program to change the desktop wallpaper in different ways, and then save the results. Once you open up the program, you can select your wallpaper. There are a variety of different ways that you can use to select your wallpaper. You can select an image from a folder on your computer, or open up a website that you want to use as your wallpaper. You can also choose a specific size for your wallpaper. If you want a picture that will completely fill the screen, you can simply enter a width and a height for your wallpaper, or click the 'choose' button and let the program choose a suitable picture for you. You can even change the wallpaper directly from the desktop by clicking on the wallpaper section of the program. From here, you can either type in your picture directly, or click on the browse button to open up a folder on your computer to choose a file from. Click the Change desktop background button to see a list of the different types of changes that you can make to your desktop wallpaper. There are options for choosing a different desktop background picture, and even a 3D wallpaper for each of the sections of your desktop
