Play before myths , the game is very exciting and .For a small hospital system to run smoothly, we need to plan well. Not just plan for our services, but also plan for the things that may come up that can affect our ability to deliver those services. Our facility experienced a plumbing issue that forced the outpatient rehab floor to have flooring replaced. This was disruptive, inconvenient, and costly. It could have been avoided if we had planned ahead. Similar to having the floor replaced, a technician has just finished replacing the phone lines in the building. We were notified about this work 2 weeks ago, but no one knew it would be ready when we needed it to be. As a result, we were forced to do the follow up on service calls in the lobby of the new facility instead of in our own office. Through this experience, we learned that in order to have a smooth working and successful hospital, we must be proactive about identifying and planning for problems before they happen. One key to a smooth work environment is to have a strong manager. By having
