The Elden Ring game is an online fantasy action RPG where the player creates a heroic character to defend the Lands Between with the power of the Elden Ring. The player controls a hero that can increase his attributes by controlling the attributes of the mysterious race, the Elden, which lives in the Lands Between. Through a variety of quests in the Lands Between, the player leads the Elden in various situations and attains various items. Also, during online play, the player explores the Lands Between together with other players and allows his hero to interact with other heroes through battles that connect players. [Lords] That's right, the legendary "Elden Lords" have risen to power. The Elden Lords, the great heroes of the Lands Between who have ruled the entire world over the course of history. We are currently creating the Lords of the Magician, also known as the Sorcerers, the Warriors, the Rainbow Lords, and the Great Heroes, the Heroes of the Lands Between. The Lords are the ones who determined the destiny of the Lands Between. As they are the unsung hero of the game, however, players cannot easily recognize them. If you want to become one of the heroes, get ready to rise, Tarnished! ♦Elden Lords RISE! Defend the Lands Between through enhancing the powers of a mysterious race called the Elden. ♦Complete 1 to 5 Actions in the Lands Between to call out their attention Using a number of quests, get the power to call out a special race called the Elden from the Lands Between. ♦Guide the Elden to help out the battle Use the power of a Heroic-Achieved NPC to guide your own hero to the battlefield. ♦Explore the Lands Between with others Enjoy the drama while exploring the endless Lands Between through online play. ♦Rise up, Tarnished. Defend the Lands Between and create your own story as an Elden Lord. The "Elden Lords" are NPCs that appear on the field during online play. As their status increases, you can create a dialogue with them by guiding them around the Lands Between. There is no way to directly guide the NPC, but to minimize the appearance of the NPC on the screen, you can prevent the progress of the train of the NPC, and thus speed up the progress of the NPC.
