REVIEW Elden Ring game is very difficult, that just get initial help then you need to try hard to reach higher levels. 1) In the very beginning, there are no weapons and armor so you must spend all necessary money to get them. 2) In the beginning of the game have no knowledge about what needed to do in order to achieve higher level, so you must spend money to earn experience and levels. I recommend that you should sell items that you do not want. Also, there are plenty of low-level monsters and items available for purchase. 3) According to the game itself, the monsters and bosses that you fight in the game are not hard to fight. But after you fought enough to earn higher level, the monsters and bosses are also very difficult to fight. 4) This game does not include too many different races. But you can still choose the race that you want. And it can be set from 5 to 6 at the same time. At the same time, you can see the different skin color. 5) This game has many varieties of weapons. But you can also be able to see the character's skin color, gender, skin color, etc. 6) Even at the current stage, the game has rich contents, very easy to understand, and the way to play the game is also very easy to learn. 7) The game has good graphics. The world map is nice and colorful and you can see the future rise of the lands beyond very well. 8) The music is not very strong and has little enthusiasm. But it still has some dramatic moments. 9) Only in the beginning of the game, the game is very easy. But after being used for some time, some more content will be added. So it does not need to worry about whether you play the game or not because after being used bff6bb2d33
