FIFA 22's new "Emotion Engine" uses physiology and real-world events (like out-of-bounds plays) to deliver compelling player animations, new responses and improved run, jump, speed, and dribble animations in gameplay. Play Video FIFA 22's "Fitness Trainer" brings a new, fully integrated fitness and wellness component to the FIFA series. Players will be able to monitor their performance and determine how they are able to play better as they improve and get fitter through gameplay. The game's "Performance Digitiser" will be able to compare a player's performance in the 2018 World Cup to their performance on the pitch in the real world. The Performance Digitiser will allow players to compare their FIFA 22 gameplay performance to previous FIFA games and future FIFA World Cups with historical data. FIFA 22 introduces a new "FIFA Ultimate Team" mode where players will build a squad of up to 24 real-world players, working to craft the perfect squad throughout a season. The "Tactical Checklist" will detail player attributes, scouting targets, and squad balancing information so that players can focus on getting the most out of their players. FIFA 22 is set to be released on September 28.

Atom-by-atom control of the nickel-catalyzed synthesis of bifunctional polynitrido-bridged polyoxometalates. The nickel-catalyzed reaction of 2,3-diaminophenazine with $[W(CO)_6]^{3-}$ affords a polynitrido-bridged complex, $\{[Ni_4W(OH)(NPrPO)_4(NPrPO)_2(OH)_2] \cdot [W(CO)_6] \cdot [Ni(NPrPO)_4] \cdot [W(CO)_6] \cdot 12H_2O\}_n$, which contains three unique types of polynitrido-bridged W(IV) units in the polyanion. It was found that the nature of the dianionic ligand present affects the structure of the polynitrido-bridged units and Ni(4) is crucial for synthesis of the bifunctional materials. However, the synthetic process can be controlled by tuning the ratio of $[Ni(NPrPO)_4]/[W(CO)_6]$ and

Features Key:

- FIFA 22 delivers new ways to play. Five on-field gameplay innovations deliver a deeper and more responsive soccer experience: Controls - Including more contemporary, precise and accurate touch controls as well as further enhancements to Zones of Control (ZOC). Targeting and ball control improvements will bring a wide range of actions to life: for example, players can pass and dribble at increased speed and ability. Skill Shot - Never used a shot again? Now you can create shots based on player movement using the new Skill Shot system, powered by a 3D engine and motion-capture data. Real Player Motion - Live out your dreams as both a manager and a player in FIFA 22. Create the newest club in FIFA, design your kits, style your stadium, and choose whether to compete with the elite or rise up from the lower divisions as you manage your club to glory. FIFA is the worldwide phenomenon that has sold more than 380 million copies since its release in September of 1994, with over 400

million players connecting with the game and more than 110 million people actively competing in daily FIFA competitions. More than 70 million copies of FIFA have been sold since the launch of the PlayStation®2 (PS2™) system. The FIFA series goes further than any other sports title in popularity, creating an entertainment platform that combines football, music and community in a perfect storm. FIFA has a broad and loyal user base with more than 400 million players connecting with the game, and an actively growing multi-platform fan base. The FIFA series is respected as a core of excellence in sports gaming. A winning pedigree backed by the popularity of football in the U.S. ensures that FIFA will remain the most successful sports video game in the world. FIFA features enhanced motion-capture animation systems, the first-ever crowd explosions and ball physics, expanded commentary, as well as several features new to the FIFA series, such as improved interaction and artificial intelligence between players, managers and teammates. FIFA also includes the option to play as one of the 32 real-world teams, including Germany, Argentina and Spain. More than 80 songs have been licensed, including chart hits from the biggest artists in the music industry, such as Janet Jackson, U2, Radiohead, The Who, Nirvana, Daft Punk and the White Stripes. Content continues to evolve through the addition of specially created new songs and voices, and through the ability to play songs from other players during live matches. More than 200 stories have been created and added to create a rich interactive experience for players. Sophisticated gameplay features such as additional pre-match preparation, penalty kick conversions, offside awareness, ghosting and card impacts have made new challenges and developments possible in the sport of football. Player profiles and other game features give players a deeper understanding of a football club or country. The game delivers the most complete and realistic sporting experience of any games on the market. Fans can play as real-world teams in FIFA (online or offline). Players can now customize real-world teams, including logos, uniforms, kits, and even banners. Players can sign new players and take on the challenge of managing a team to achieve the ultimate goal: a World Cup Championship. A new gameplay mechanic, the Ultimate Team, offers

System Requirements:

To run on up to 2 GPUs (dual-core CPU and 1 GPU) With a speed of 2.8 GHz the GTX-780 is the clear winner for gaming. It delivers a higher performance than the 9800GT and the HD 6870 at high settings and also on lower settings. GTX-980 performs best on the comparison at high settings. It is just as fast as the HD 7870, but has a higher resolution on screen. We would recommend the HD 7870 only to very hardcore gamers that want the best performance.
