The next major update, set to be released this month, will bring a new tutorial system, some new content, and more.

**Tutorial: Create Any Player Class** Players who have yet to create a level character will finally be able to create a player character of any class they choose. Players will be able to directly navigate between the creation flow and the character info screen, letting them check out some basic ideas for their character, such as race, class, gender, and name. *These tutorial videos will be added to the official Tales of the Elder Scrolls website in English, Spanish, French, German, Italian, Japanese, and Simplified Chinese. ## **What's new in Elden Ring:**

**Beyond Classical Role-Playing Games, the game of DUST 514 has actual special forces as antagonists, casted characters who can be befriended and thus play a big role in the story. This aspect adds substantial drama to the game while absorbing players' interest. And in DUST 514, in addition to single player modes, you can play the game cooperatively with friends or non-player characters. For example, your decisions and actions as a character have an impact on your online friends, who are playing as their own characters, and vice versa. The synergy between the various elements adds yet more excitement, and rewards you with items and characters that may have been missed out on during the single-player modes.**

**A few days ago, we hosted a Heroes of the Storm panel at Blizzcon, where we gave a new update on the game, the Ascendence update. This panel was not about Heroes of the Storm but about the Ascendence Update. To read more about what we did in this video and to go behind the scenes on what it was about, go to our main post on the update. In short, we went through some exciting new content we have in the code for Heroes, including the new Ascendance Mode which was our featured panel from Blizzcon. Stay tuned as we have an even bigger patch coming up and some exciting things to talk about including Fractals, Shifting Sands and some new organized mayhem waiting for you! Let us know your thoughts on our discussions about the Path to Conquest expansion, your favorite new Hero and class feature ( if there is one ) and if you played in the Ascendance tournament and want to share your experiences. IMMERSIVE ACTION Unleash your full potential in ever-evolving combat situations as you master all-new game modes and engage in intense, razor-sharp action. Choose from three diverse and unpredictable character classes: the martial arts-loving monk, hell-raising sorcerer, or lightning-fast warrior. All heroes have their own tools at their disposal, from powerful melee weapons and high-velocity crossbows, to devastating magical attacks that can completely break a foe's defensive grid. These destructive powers fuse together to set**
