## SplashNotes [Mac/Win]

SplashNotes is an advanced personal task manager that helps you handle and organize all your notes, tasks and project lists in a simple and straightforward way. Use SplashNotes to keep all the essential information organized and safe. Writing them down on paper might not be the best solution, as the sheets can get lost or destroyed. There are diverse programs out there that provide basic or more complex functions as a solution to these problems. Easy-to-use and straightforward interface SplashNotes is an accessible and user-friendly application designed to offer a simple and practical way to compose personal goal notes, team project or shopping lists or tasks that need to be accomplished. The installation is finished before you know and uncomplicated. It's wrapped in a modern and intuitive layout displaying a two-tabbed ribbon menu with all the options neatly organized in sections for quick access. In addition, the panel is divided into the working area and a file list on the right side, where you can easily add new templates for faster insertion. The app supports multiple tabs open, which facilitates the writing process and makes it more efficient. To each window, a distinct color is attributed. Customize your lists and add images to describe the composition better. From the home tab, you can insert copied text from the clipboard, personalize the content with specific font types, styles, sizes and colors, hide the checkboxes, expand/collapse the tree, if it's the case, along with find and replace function and window view management. The Outlining section, lets you enter new items, delete or duplicate them, move a task up, down, left or right, add scheme (e.g. legal, roman, mixed, numeric, alphabetic), dividers, as well as insert pictures and files from the computer. In addition, the records can be sorted in ascending or descending order and copied to the filing cabinet. It would've been nice if there was an option to send completed assignments to a separate category and set alarms for important events. The interface appearance can be changed from the "Style" button in the right corner of the panel. To sum it up The bottom line is that SplashNotes is a useful and approachable program created to be a basic yet efficient tool to design bullet lists and annotations for various purposes and manage the with ease in
