Experienced crew members of a ski resort with almost 25 years of experience and clients from the entire winter scene, join the Snow Experts through for the winter season 2012/13. Your task: Make as much snow as possible at the current ski area the clients use for training purposes. Three snow cannons and one snow lance are available to you. With a portable digital copy of the DLC you can make snow on your own current ski slope. By using a USB flash drive and a PC, you can easily implement the activated machines or devices to your own winter resort! Careful administration of the snow cannons and snow lances will bring success! Live and let live - no need for aggressive, changing conditions! All snow cannons and snow lances are equipped with hoses. For repair, maintenance and cleaning, you have the option to use your personal snow blower. For a perfect

snowmaking game, please make sure you set this up by yourself. Are you in the mood for some relaxation? A skiing ski area outside of the snow cannons? You can do this as well! The controller: Your gamepad is included, but is not essential. If you have an Xbox controller, you can also use it in the game with your Steam account. The controller is located under the TV. If it is not in place, please request it to your gamepad seller immediately.
