Saurian is a science-fiction first-person shooter game produced by Hexodus Design & Development LLC, a Canadian game development studio, and published by Hexodus and Gamellogic for iOS devices and macOS computers. Saurian is a story-driven hardcore shooters from the future where you play the part of Sauer, a post-human being trapped in a dystopian and hostile world – a world where the strongest and most intelligent species rose above the rest and conquered the entire Earth. Saurian takes place in the world of Eureka, a city where

the genetically engineered creatures called “Orbs” thrive. However, the Orbs are not as superior as they seem, and many of them have defects that leave their minds damaged. If they die, the damage caused by the defects spreads to their siblings. Sauer must deal with the Orbs and defeat the Eureka Army, an elite army of anti-Orb soldiers that constantly try to eliminate him. Sauer will have to evade the Army, find the Orb with the most severe defect and learn to master it, and figure out who wanted to kill him. Sauer will discover that Earth has been conquered by the most vicious and cruel species ever to emerge on the planet – the humans. Abdominal aortic magnetic resonance in a patient with giant cell arteritis: a case report. Giant cell arteritis (GCA) is an inflammatory disease of large vessels characterized by a granulomatous vascular inflammation mediated by T-lymphocytes. Clinical manifestations of GCA are not specific and vary in severity. Inflammatory tissue damage in these patients includes necrosis of target organs and special areas of vascular wall. We present a case of a 70-year-old woman with recent-onset heart failure, in whom clinically unexplained heart failure developed. A hemodynamic
